**Cc:** Papadimitriou, Apollon {TR-C~Penzberg}  
**Subject:** RE: Case 20619: New pharmaceutical composition

Dear Lewis,

The material used is described in our Case 20431 (P. Bailon), i.e. material of formula I which is identical to the material described in the Investigator's Brochure (IB) (First Version, May 2000) for Ro 50-3821.

Best regards.

Hubert

**Subject:** RE: Case 20619: New pharmaceutical composition

Dear Hubert,

For Examples 8, 9 and 10, which pegylated EPO was used, formula I or formula III, or both? What else is known about the pegylated EPO used (eg. molecular weight of the PEG reagent, MW of the conjugate.)

Regards.  
Lewis

Dear Lewis,

As discussed, please find attached a copy of the captioned case. We will forward the filing date and filing number as soon as possible.

Best regards.

Hubert
